Introduction

British Exploring Society is a world class youth development charity with a unique heritage, founded on the belief that challenging experiences can define lives, empowering and equipping young people with the courage, skills, resilience and determination to make the most of their future.

We prepare and take young people on adventures and expeditions to remote locations where they face challenges, gain skills and learn about themselves - as well as acquiring knowledge relevant to their lives and to the fragile environments that they explore.

The results are transformative – not just in terms of practical skills and resilience, but in a new-found confidence and self-belief which they carry forward to their future life.

More than this, through their adventure together, our young people forge friendships for life and become part of a unique supportive and continuing community of explorers with shared experiences, values and perspectives on the world.

We are committed to building an executive and volunteer team that together represent a diverse variety of backgrounds, skills, and perspectives on the world. The more inclusive we are, the better we think we'll be at delivering our charitable aims.

The Role in Detail

We run programmes for young people aged 16-25, reaching out to disadvantaged young people on the margins of society. This includes young people in foster care, leaving care, not in education or employment, those with behavioural, physical, or mental health challenges. They are recruited individually, but principally depend on referrals from youth organisations, schools and other interested organisations who we work with as partners to ensure positive outcomes for the young people we recruit together.

This postholder will lead the Young People team to ensure safe, appropriate, and empathetic recruitment and sustained engagement of young people to positively participate in our programmes.
